

# BOND 2022

## WHY IS THE DISTRICT HOLDING A BOND ELECTION?

1. To enhance academic and extracurricular spaces
2. To modernize the 1966 building
3. To improve the safety and security of AISD facilities

## WHAT IS INCLUDED IN THE \$12M PROPOSAL?

The proposed projects and anticipated costs include:

## CAMPUS FACTS

Classrooms in the 1966 building **are not energy efficient** due to lack of heat and HVAC in the hallways.

Due to building age and condition, the water and gas lines in the **science labs do not work.**

Track and cross country students

**train on city streets** because the District has no track.

Having 1 gym **limits student practice and performance times** for extracurricular activities.

The Ag Building is located **outside the campus security fence.**

\$200,000	\$160,000	\$17.60

\* Assuming passage of the constitutional amendment increasing the Homestead Exemption. The previous 2015 amendment passed with 86.4% approval.

### NO TAX IMPACT FOR SENIORS

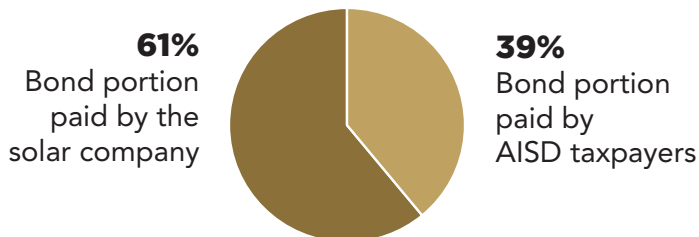

with an Age 65 Freeze and no major home improvements or upgrades

## QUESTIONS AND ANSWERS

### How does the solar farm impact the bond?

Over the life of the bond and based on current projections, the solar farm will pay roughly 61% of all bond payments. The timing of this bond also capitalizes on the highest value of the solar farm.

### Why a practice gym?

To alleviate scheduling conflicts and provide more space for school and community groups, such as AYSA. The auditorium would serve as a dedicated area for OAP and related events.

### How long to complete these bond projects?

If voters approve the election, it will take about 2 years to complete. Teachers and staff would participate in design meetings to give specific input. The Board of Trustees would have final approval on authorizing the work.
